Whaleships in the Pacific Ocean. OFFICE OF THE PANAMA RAIL-ROAD COMPANY,

NEW YORK, July 20, 1857.

The Panama Rail-Road Company takes this method of informing those interested in the Whaling business, of the advantages offered by the Railroad across the Isthmus of Panama, for the shipment of Oil from the Pacific to the United States, and for sending outfits and supplies from the United States, and for sending outfits and supplies from the United States to Panama.

The Railroad has been in regular and successful operation for more than two years, and its capacity for the transportation of every description of merchandise, including Oil, Provisions, &c., has been fully tested. The attention of several Captains of whaleships has recently been turned to the subject of shipping their oil from Panama to New York during the present season, and the Panama Rail-Road Company has made arrangements to afford every facility which may be required for the accomplishment of this important object. A Pier, 450 feet long, has been built in the bay of Panama, to the end of which Freight Cars are run to receive cargoes from lighters or vessels lying alongside, and deliver the same alongside of vessels at Aspinwall. Vessels of from 200 to 300 tons can lie at the Pier with safety, grounding in the mud at low water.

alongside, and deliver the same alongside of vessels at Aspinwall. Vessels of from 200 to 300 tons can lie at the Pier with safety, grounding in the mud at low water.

The vessels to and from Aspinwall are fast-sailing brigs, belonging to the Rail-Road Company, and the Company is prepared to receive oil at Panama and deliver it in New York, under through Bills of Lading at the rate of seven cents per gallon, if received at the Pier, and eight cents per gallon if received in the harbor from ship's tackles, charging for the capacity of the casks, without allowing for wantage. For whalebone, one and one-half cents per pound. This charge covers every expense from Panama to New York, in case the oil is sent through the Superintendent or Commercial Agent of the Panama Rail-Road Company, insurance excepted. The freights may be made payable on the Isthmus or in New York at the option of the shipper.

The vessels of the Company sail regularly semi-monthly, and the average passages to and from Aspinwall are about twenty to twenty-five days. The time occupied in crossing the Ishmus is four hours. Oil, during its transit across the Isthmus, will be covered with canvas, or conveyed in covered cars, and owners may be assured that every care will be taken to prevent leakage. Several cargoes have already been conveyed to New York with out the slightest loss.

Oil or other goods consigned for transportation to the Superintendent of the Panama Rail-Road Company, or to William Nelson. Commercial Agent of the Company at Panama, will be received and forwardel with the greatest despatch.

The Frederic L. Hanks has been appointed Agent at Hono luiu, Sandwich Islands, and is prepared to furnish every requisite information to shippers.
